Madame President,

Angola warmly welcomes the delegation of Seychelles to the 3<sup>rd</sup> cycle of the UPR and thanks them for their informative national report.

While commending Seychelles for its engagement against climate changes, Angola also positively notes progressive strides made to promote and protect human rights, including recent initiatives to reform the judiciary, as well as the modernization of the prison system.

Angola, particularly, commends Seychelles for measures taken to fight against human trafficking.

With a view to continuing to support national efforts, Angola wishes to recommend the following:

1. Strengthen measures to combat drug use among children and adolescents,
2. Take specific measures aiming for greater inclusion of people with disabilities in climate change adaptation plans,

Angola wishes Seychelles a successful review.

**I thank you, Madame President.**
